LETTER OF SUPPORT / RECOMENDATION

We are Planet Water Foundation, a US based non-profit international development organization focused on bringing clean water to disadvantaged communities through the installation of water purification systems.

For the past two years we have worked closely with SkyJuice Foundation Inc. as our primary supplier of water treatment solutions. To date, we have deployed SkyJuice systems in seven countries in Asia serving the clean water needs of over 20,000 children.

The SkyJuice water treatment solution, supported by their exceptional field and technical support, was instrumental in the progress Planet Water Foundation has made in extending our reach across our focus geographies in Asia.

Based on my experience with the professional organizational support and water treatment solutions and products offered by SkyJuice Foundation, I hereby acknowledge my full support and recommendation of this organization as a company making a substantial difference toward addressing the world's clean water issues.

Should you need any further information, please feel free to contact me directly.

Kind Regards,

A handwritten signature in black ink that reads "Mark Steele". The signature is written in a cursive, flowing style.
