

APPLICATION ENQUIRY SHEET SKYJUICE SYSTEMS

This is an enquiry form to quickly assess the needs for SkyJuice™ systems for deployment in disaster relief and medium term water supply requirements.

If you don't know the answers to all the questions, please, just complete what you can and that will help us prioritise your request. Please write brief details on the line provided.

Please note: The **SkyHydrant™** will not remove salt or chemicals & minerals from the water.

Where does the water come from that you wish to filter?

- From a creek or river water
- From a dam or well
- From a tank (which gets its water from?)

How much water do you require per day to meet your proposed requirements?

Where would you like to install the water filter?

- In a communal water supply at a village (how many houses and how many people per house in the village).
 - Refugee camp—(how many people)
 - Hospital —(how many beds)
 - Orphanage —(how many children)
 - School —(how many children)
 - Other — details
-

How is water proposed to be lifted up to a holding tank?

- Pump (electric, petrol, etc)
- Hand bucket
- Gravity feed from upstream creek or dam
- Other

Have you arranged for this as part of your scope?

What infrastructure (if any) is currently available where the filter is going?

- Electricity (to power pumps)
 - Overhead water or holding tank
 - Other if any
-

Is existing water available in the area from the following?

- Town water supply
 - Water trucks delivering to roadside water tanks
 - If yes, for what reason is a water filter required:
-

Can a secure location be found to prevent damage to the filter from passing traffic, vandals, children, theft or misuse?

- In a private house or yard with a tap outlet to a community area
- In a church or school etc in a supervised courtyard
- Other location

Please nominate proposed location:

Country
City
Township

Installation training – Will a knowledgeable person be available to attend a training session to learn how to install, how to commission and how to maintain the filter?

Yes/No

Maintenance undertaking – Will a knowledgeable committed person will be available onsite to continue maintenance and operation of the filter on an ongoing basis.

Yes/No

Details of your organisation and relationship with the proposed community
